Prior to establishment of Rima Foundation Limited, Amir Sabermanesh, the Managing Director of Rima Foundation Limited, travelled to Vietnam in 2019 for carrying out humanitarian projects. He visited many families in rural areas of 3 provinces in south and central highland of Vietnam.

during his 3 months travel in Vietnam he carried out few projects such as helping a family to generate income, provide clean water access to 3 families in Soc Trang province, building a multi handwash station for children in an orphanage in Bac Lieu city, and distributing rice to poor families in Dak Lak province.

After seeing the poverty and struggle of families living in rural region of Vietnam, the extend of needed humanitarian help, and his desire and passion for helping misfortunate families and children in need, he decided to establish the Rima Foundation Limited. It is a legal requirement for foreign visitors wishing to carry out charitable activities to be associated with a registered non-government and non-profit organisation.

Here are some images of his work during this travel.
